MADE IN ITALY

NOUBA DNA

Founded in Milan in 1978 by make-up artist Rosy Armanini, NOUBA was born from the encounter of two worlds.

On one side, the expressive power of colour revealed during a transformative journey in Sudan, where the aesthetic language of the Nuba tribes expressed beauty as identity, emotion and cultural presence.

On the other, the discipline, precision and mastery of Italian craftsmanship. This dual heritage continues to shape NOUBA's identity today.

Over time NOUBA has built
a distinctive professional DNA around
three foundations:

Colour Mastery

A deep expertise in pigment, chromatic intensity and expressive color impact.

Innovation & Performance

High-performance formulations and advanced R&D reliability that positioned NOUBA among the early professional make-up pioneers in Italy.

Individual Expression

Products designed to empower creativity and personal identity.

Nouba's iconic products represent the essence of the brand; beloved and recognized best sellers designed to deliver exceptional results and timeless elegance.
